## ATWIMA NWABIAGYA MUNICIPAL MAP

# THE DISTRICT ECONOMY

The economy of Atwima Nwabiagya Municipality can be classified under four broad categories namely: agriculture, industry, trading and services. The service industry employs 31.7 percent of labour force, followed trade/commerce which employs 25.9 percent, agriculture, 22.8%) and lastly industry employing (19.6%).

# THE DISTRICT ECONOMY

## Occupational Structure of Atwima Nwabiagya Municipality

No.	Sector	Percentage of Labour Force (%)
1	Service	31.7
2	Trade	25.9
3	Agriculture	22.8
4	Industry	19.6
	Total	100

# THE DISTRICT ECONOMY

Although the Municipality is sixty eight (68) percent rural and thirty two (32) percent urban, generally it will be expected that agriculture dominates the economy, however it should be noted that most of the settlements are closer to the urbanized communities and so are mostly engaged in services and trade activities.

# THE DISTRICT ECONOMY

## **Education**

Important role that education plays in the social, cultural and economic development of a country as a whole and the Municipal in particular cannot be over-emphasized. In a developing peri-urban municipality like Atwima Nwabiagya, the need for skilled manpower is important.

# THE DISTRICT ECONOMY

On public schools, there are thirty (30) kindergarten/nursery schools, thirty-seven (37) primary schools, twenty-seven (27) Junior High Schools, and two (2) Senior High Schools in the Municipality. The private schools are twenty-five (25) kindergarten/nursery schools, thirty-seven (37) primary schools, twenty-seven (27) Junior High Schools, two (2) Senior High Schools and four (4) vocational schools in the Municipality. One of the Senior High Schools provides technical courses. There are also four (4) Vocational Schools and one (1) Theological University in the Municipality. The Assembly is constructing one additional senior high school at Abuakwa which will serve

## **School Performance at Basic Education Certificate Examination (BECE) Level**

An observation of BECE results in the municipality may reveal a beautiful picture in terms of school participation rate which is over 98%. However, a critical analysis of the picture indicates that schools that are closer to peri-urban communities have the tendency of contributing to the high performance. On the other hand, the performances of public schools in remote communities usually obtain low pass rate mainly due to negligence in supervision, inadequate logistics and poor teaching and learning materials.

## **Challenges facing the Educational Sector in the municipality**

The table above shows that the BECE performances from 2015 to 2017 have been retrogressing steadily. There is therefore the need to upscale the performance through effective supervision of teaching and learning.

The key challenges affecting improved educational standard in the Municipality include the following:

- i. Low academic performance at the basic school level
- ii. High number of dilapidated classroom infrastructure

# THE DISTRICT ECONOMY

- iii. High level of congestion in some schools
- iv. Inadequate school furniture
- v. Weak supervision in schools
- vii. Ineffective ICT education in the Municipality

# THE DISTRICT ECONOMY

## Health

- The Health Services in the District are tailored towards integrated, preventive and curative services with emphasis on Primary Health Care. The main services provided are:
  - General medical care
  - Maternal and child health care and family planning
  - Nutrition and health education
  - Diseases control
  - Environmental health care

# THE DISTRICT ECONOMY

The Municipality has only one (1) Public Hospital with the current projected population of 103,698. This clearly shows that the Municipality needs additional health facilities. The current hospital gap is being managed by two (2) Health Centres, one (1) Private Maternity Home and one (1) private clinic, which are located in Abuakwa, Nkawie-Toase, and Afari. The Municipal Hospital is located at Nkawie/Toase.

## **Status of District Health Insurance Scheme**

In 2016, One Hundred and Thirty-Five Thousand and Eighty-Eight (135,088) people were registered into the National Health Insurance in the district.

In 2017, One Hundred and Fifty Seven Thousand, Five Hundred and Ninety-Two (157,592) people registered. These figures include new registrants and renewals. There was a 16.8 % increase in new registrants and renewals.

# THE DISTRICT ECONOMY

The strength of the District is the community based surveillance programme. Community Based Surveillance Volunteers (CBSVs) have been trained to support community health activities. They record and report on all health events in the communities including diseases, deliveries, deaths and referrals.

# THE DISTRICT ECONOMY

## Challenges facing the Health Sector in the municipality

- After in-depth analysis with the Health sector in the municipal, the following challenges emerged.
- Inadequate residential accommodation for the health personnel
- Inadequate medical equipment.
- Inadequate health infrastructure in the district
- Lack of motorbikes at the CHPS zones to support service delivery

# THE DISTRICT ECONOMY

- Over aged vehicle which breaks down often
- Inadequate funds for service delivery
- Lack of rehabilitation centre to manage malnutrition cases
- Delay in NHIS Claims reimbursement

# THE DISTRICT ECONOMY

## ROAD NETWORK

The main means of transport and other transactions in the district is through the use of road network. Roads are very important determinant of the accessibility of people to services and facilities. It is therefore necessary to analyse the road network and their conditions.

Two trunk roads within the Municipality are the 16km stretch of Abuakwa – Wioso road and the 5 kilometers stretch of Abuakwa – Mfensi road. In all, the Municipality has 109.5 kilometres of Bitumen surfaced road. The remaining road network (137.2 km) is graveled roads. The total bitumen surfaced roads in the Municipality in 2005 was about 82.2km.

# THE DISTRICT ECONOMY

## ENERGY

- The electricity coverage in the Municipal is about 70%. Most of the bigger towns have access to electricity. Twenty-four communities do not have electricity and some of the communities are as follows: Bankyease, Akwapim Ntabanu, Ahwiaa, Ntabanu, Fankamawe, Sewua, Anyamesem etc. Plans are underway to extend electricity to those communities that do not have electricity.
- The Federal Ministry of Education and Research of Germany (BMBF) in collaboration with Ministry of Environment, Science, Technology and Innovation (MESTI) of Ghana through West African Science Service Centre on Climate Change and Adapted Land Use(WASCAL) in Accra conducted a feasibility studies on renewable energy resources in Ghana under the supervision of CSIR-Ghana. The results of it is the construction of Hybrid Waste-to-Energy and Solar PV system at Gyankobaa. The first of its kind in Ghana.

# THE DISTRICT ECONOMY

## ENERGY cont'd.

### Objective of the Project

The objective of the project is expected to improve sanitation in Kumasi by converting the ever increasing municipal waste into energy.

For productive uses and contribute to sustainable industrial development. The energy generated is expected to feed into the Military Hospital project and other government installations in the Gyankobaa enclave. Ultimately this venture will also promote government plans of increasing the use of renewable energy resources to reduce the effects of climate change.

# KEY ISSUES AND CHALLENGES

- Youth Unemployment which we believe with the introduction of NABCO most of the youth will get something doing
- Inadequate skills training centres
- Low industrial development
- Low agriculture production/productivity: in this area too being a flagship programme of government which has seen the distribution of fertilizer at subsidized prices will help increase production.

# KEY ISSUES AND CHALLENGES

- Over-dependence on rain for agriculture. This challenge could be surmounted if the government fulfil its promise of 1 District 1 Dam.
- Lack of Storage Facilities
- Poor road conditions and road networks in the hinterlands.
- Poor settlement layout or planning schemes. To solve this challenge the MCE has tasked Physical Planning Dept. to provide us with the satellite images of the district to help in planning schemes preparation.

# POLICY OBJECTIVES AND SDGs FOR ANMA-2020
